

The **ClearGage Payment Accelerator™** is a HIPAA and PCI compliant web-based software product designed to calculate, process, and collect your patient's medical payments quickly and cost-efficiently at the point of service. The software is comprised of several distinct modules that when combined, offer one of the most intelligent and comprehensive healthcare payment solutions available.

Eligibility Information

Take advantage of ClearGage's FREE integrated medical claims clearing house to access 100s of insurance carriers or utilize any medical clearing house of your choice to get real-time patient insurance information that includes health insurance eligibility, co-payment responsibilities, and their annual year-to-date, out-of-pocket expenses.

The ability to verify insurance eligibility and calculate patient costs is a powerful tool that's central to ClearGage's philosophy of transparency and efficiency.

For Your Patients: Provide your patients with the information they need to make intelligent decisions about their healthcare. Deliver peace of mind by offering them a clear and accurate assessment of what their coverage is and what their responsibilities will be at the point of service.

For Your Practice: Save time and money by enabling office staff to quickly determine key eligibility and benefit information (e.g., co-pays, co-insurance, and deductibles, and differences in coverage for services provided in- versus out-of-network).

How It Works

The ClearGage Payment Accelerator can receive patient eligibility directly from your practice management system (PMS) or through a direct connection from any third party medical clearing house.

About Us

ClearGage, Inc. is revolutionizing the way medical providers do business. By developing innovative healthcare payment solutions and services that employ revenue cycle technology and are HIPAA/HL7 compliant, we're doing our part to bring retail to healthcare and simplify the process of calculating and collecting payments.
